## Machining Centers

**Rover 27**  
20 spindle boring head. PC controlled 51" x 135" table. 2 Vertically mounted HSD router. 18 pos automatic tool charger. Year 2000

**\$79,500**

**Rover 24 Ft**

Standard m/c. single hsk router, 6 pos. tool change. 2 zone table nesting. 40HP vacuum pump. PC control. Vertical and horizontal drilling Year 2002

**\$49,000**

**Thermwood C-40**  
5 x 8 table 460V 60HZ 3Phase Integrated high flow, 10HP, 3000-24,000 RPM, 5 position tool change, auto tool length, 25 HP, vacuum pump. Year 2000

**\$45,000**

## Dust Collectors

**Spec. Air**

20' Inlet pipe. 25 socks  
15 HP Dumping bin  
Inside or outside system Year 2004

**\$9,500**

**Murphy 40hp**

Details to follow from manufacturer specification sheet.  
Auger dumping system. Year 2002

**\$30,000**

**Belfab**

4 bag 220V  
3PH, 10HP

**\$2,500**

**Kraemer 21/40 HP**

External dust collector , rotary type discharge into bin. Has return air system included. 40 HP, auto shaker 20" pipe, 10x10 frame. Year 1990

**\$28,000**

## Edgebanders

**Holz-her 1443**

220 V, 60Cy, 3Ph 0.4 - 30mm edge banding cap, automatic magazine for coil, strip & solid edgebanding, HD guillotine for 3mm PVC, End trim, rough t&b. fine t&b, scraping, buffing. Year 1993

**\$25,000**

**Ortza UK 19/11**

6 coil magazine feed, premilling, glue station, 4 roller pressure, end trim, rough T&B, grooving, corner rounding, scraping, hot air, buffing.

Year 2001

**\$17,000**

**SCM K208**

Coil & strip feed, glue station, 4 roller pressure, end trim, top & bottom trim, buffing.

**\$23,500**

## Shape & Sand

**Unique 313**

Automatic cycle controlled by maintenance free PLC software with dowel drilling for accurate & easy alignment of mitered corners; (2) 5HP dual motors for shaping w/1-1/4" spindles, (2) 0.33 HP motors for drilling with 10 mm collets. Year 2004

**\$22,000**

## Table Saws

**SCM SI 150**

Sliding table saw with cross cut & Rip fence. Manual blade rise & fall. Tilting 0-45 degree.

**\$6,500**

**Paoloni P300**

230V, 60Cy, 3Ph. 120" crosscut with scoring. 12" main say blade dia. 3-7/8" scoring blade dia. Tilting arbor 0-45°, 51" rip cap. 3-7/8" max depth of cut at 90°, 4000 RPM cutting speed.

Year 2001 **\$11,500**

**SCM Hydro 2000**

3 Phase 60 Hz  
5' sliding table saw c/w scoring blade. Crosscut fence & rip fence. Year 1996

**\$12,500**

## Sanding

**Quickwood Pro 1400**  
50" wide  
Single brush head system.  
**\$55,000**

**SCM Sandya 3**  
36" opening,  
auto table height,  
two head drum, pad.  
**\$18,500**

**Stroke Sander**  
10x32 sliding table (manually operated in & out), 5HP motor, approx 6" width abrasive belt, thickness opening 0"-24"  
**\$3,200**

**Sanding Master**  
36" wide table  
Single head  
Power rise and fall, 220V  
**\$7,500**

**Cantek**  
Frame is fabricated of heavy duty steel plate and ribbed to minimize vibration and deflection. Button operating controls, main motor drive, spring loaded hold down rolls. Spring loaded pinch rolls, variable feed speed. Automatic elevation. Digital readout. Year 2001  
**\$12,000**

## Clamps

**JLT**  
5 Section rotating machine 26"x 62" max. cap. 4"x12" cap. One lever operation clamp and a square door in 2 sec. 500lbs. Rotates counter clockwise for safety Electric gear motor runs on standard 110V push button rotation optional.  
**\$4,500**

**Uhling HP3000**  
69" wide x 75" high x 24" deep clamping cap. Upright design, clamping operation by (4) dual air pod pressure bars which are pneumatically activated, 3-1/2 stroke of air pod with 0-120 PSI pressure. Individual selection of pressure bars. Year 1999  
**\$5,500**

**Comil CF2000**  
Automatically self-adjusting Feed Through Clamp with pneumatic clamping pressure & electronic self-setting of clamping units according to cabinet size via multiple photo eye sensors; feeds "Left to Right".  
Year 1989  
**\$29,000**

## Horizontal Beam Saws

**Holzma HPP81**  
3" Cutting height. 18 HP motor cadmatic control. Front load 12" cutting. Great condition. Year 1992

**\$12,800**

**Holzma HPP 250**  
149" cut length & 2.8" saw blade projection, 18 HP main motor & 1.5HP scoring motors. Scoring saw adjustment is from the PC control. Year 2006  
**\$65,000**

## Vertical Saw

**Holzher 1270**  
63" x 169" cap., 4 HP motor, 2" depth of cut, 8-5/8" dia. saw blade at 6,640 RPM. Saw ,36 & 72 FPM .075 HP feed drive; s. Built-in dust collection, (2) flip-out shelves for small parts, rip gauge with (3) cam settings, (2) gauging bars throughout frame length with (2) flip stops. Year 1993

**\$12,500**

## Chop Saw

**Opticut 104**  
Working height 35.5", wood species- soft or hard wood, 575V, 60Hz, 3PH, accuracy +/-0.004", dust extraction -650CFM, compressed air consumption 10.6 CFM "dry air only" saw blade drive motor - 10HP , blade diameter 520mm with 30 mm bore. Saw speed 2,900 rpm.  
Year 2003  
**\$89,000**

## Shapers

**Cantek**  
Heavy plate steel, precision spindle with 5 1/2" of spindle adjustment and quick micro adjustment for hand wheel. 5 speeds- 3,000 - 10,000rpm.  
**\$4,500**

**Champfond SP-102**  
2-5/8 spindle wheel  
One-piece table: 30" x 27"  
Includes power feeder. Year 1993  
**\$4,500**
